MISCELLANEOUS.

FOR COUGHS, CROUP AND CONSUMPTION USE

**TAYLOR'S**

CHEROKEE REMEDY

OF SWEET GUM AND MULLEIN.

The sweet gum, as gathered from a tree of the same name, growing along the small streams of the Southern States, is a natural and powerful expectorant principle that loosens the phlegm produced by the irritation of the throat and bronchial tubes, and thus relieves the cough and croup. It is also a powerful remedy for consumption, and is the only one that does not injure the system. It is the only one that does not injure the system. It is the only one that does not injure the system.

Water-works.  
This evening.  
At the Business Men's association.  
Janesville Lodge No. 33, A. F. and A. M., regular semi-monthly communication at Masonic hall this evening.  
Mr. and Mrs. Henry L. Picher are now comfortably located in their new quarters No. 3—Kendallworth block, Main st.  
Remember the dance given at Cannon's Hall one week from to-night by the operatives of the Janesville shoe factory.  
Crystal Temple of Honor No. 32—regular weekly meeting this evening—lodge room in the Judd block, North Main street.  
The telephone line is now completed to the village of Fulton, where an exchange is established, the line now being open for toll business.  
The California excursion party, which left this city some days ago, arrived at their destination on Monday last, all well and in good spirits.  
Mr. Fred. Colvin, of Milwaukee, but formerly employed in the store of M. C. Smith & Son in this city, spent Sunday with Mr. Will Pond, of the third ward.  
Julia Gardner's Female Mastodons will appear at Jappin's Music hall on Wednesday evening of this week, under the management of Billy Arnold, the well known minstrel man.  
The Beloit Free Press, of Saturday evening says: A brakeman, named Van Antwerp, on the Northwestern road, had his left hand crushed between car bumpers, in the Beloit yard this morning.  
The most feasible way to "boom" Janesville at the present time is to adopt a complete system of water works; agree upon a system and have the work commenced at the earliest day possible.  
The annual meeting of the Court Street M. E. Church will be held in the audience room this evening. Coffee and sandwiches will be served by the ladies after the business is finished.  
The navigation committee of the express wagon have faces covered with smiles to-day on account of a new coat of paint on the vehicle. It is a change for the better, and Al. Schaller, who handled the paint brush, deserves a compliment.

Tarrant & Osgood have beaten the record on squashes by the one now in their window. It was raised by Mr. Horace McDill, of the first ward, and weighs one hundred and sixty-two pounds. The seed was from the champion at the Rock county fair in 1884, a squash weighing one hundred and thirty-four pounds.

Advertisers will do well to remember that the Weekly Gazette will be mailed this week to every farmer in the county. If you want to say anything to the Rock county people and haven't time to write them all a personal letter, the Gazette is prepared to speak for you. Matter for the weekly must be in the office as early as ten o'clock, Wednesday, a. m.

The season is approaching when soda water and lemonade will be barred from the list of available drinks, and some substitute will be wanted in the list of light beverages. Frank Shuter has provided for this by buying in a stock of mineral waters, which includes many of the favorite varieties. He makes the Yippsippi and Congress waters a specialty, and has a large stock of freshly bottled goods.

Yesterday afternoon at three o'clock Patrick Murphy, who had been failing for some time, died at his home on Gold street, fifth ward. The disease was consumption and had kept him in bed for several weeks. Deceased was a man about thirty years of age. He was employed as engineer on the C. & N. W. road and was unmarried. The funeral will take place to-morrow morning at nine o'clock from St. Patrick's church.

The tobacco convention to be held in this city October 15th, is being pushed vigorously. The committee on general details is composed of A. M. Valentine, C. G. Sutherland and Charles Atwood. They have invited many of the most prominent men in the state and have received favorable answers from most of them, and legislators from the surrounding districts, Senator Spooner, of the United States senate, and representatives from the various eastern tobacco growers' associations may be expected.

Mr. Peter Myers broke ground this morning for a new block of business buildings at the corner of North Main and North Second streets, being the vacant lots just south of the old woolen factory. Mr. Myers will not state for what purpose the buildings are to be used, but is tired of allowing the property to remain unimproved longer, and proposes to go ahead with his buildings. Some say he has agreed to build a large tobacco warehouse at this point.

A couple of Beloit hunters who have been to Koshkonong and know whereof they speak, advise everyone to pack their boats in the river near Janesville, as there are boat thieves about the county capital who gobble the skiffs as soon as they get an opportunity—Beloit Free Press. It does seem rather bad luck that Beloit hunters should be so hard up at the end of a hunt as to pawn their boats for the money to buy a supply of ducks. But even in that case there is no need of taking the trouble to explain how the boats went. It is generally understood in a case of that kind just what has happened.

Some time yesterday afternoon an entrance was made into W. C. Holmes' tobacco establishing by persons who evidently bent on theft. They must have climbed out of a boat through a trap door into the basement, and from there passed into the other rooms. A hole was cut in one of the doors, thus giving room to reach the fastening, but besides that no evidence of the visit was found. Mr. James Holmes went into the store about seven o'clock Sunday evening and found the doors unlocked. He barred them up again and examined the stock to see if anything was missing. No loss was discovered, so it is supposed that the intruders intended to wait for darkness before taking away any plunder.

The annual ball and banquet to be given by the members of W. H. Sargent

and the W. H. Sargent Woman's Relief Corps on the 21st inst, will be a notable event, and one worthy the patronage of our citizens. Notwithstanding that it is a public affair, the well known fact that the grand army boys were never known to give anything but a first-class dance should keep no one away for fear the best of order will not be maintained. The boys pride themselves on their good behavior and their guests are expected to include only those similarly inclined. Tickets are being sold rapidly and a good attendance is already assured. The dance will take place at the Bower City Rifles' armory, and the banquet at the Post headquarters. One dollar pays the bill and the proceeds go to swell the relief fund of both organizations.

Post No. 20, Grand Army of the Republic and the W. H. Sargent Woman's Relief Corps on the 21st inst, will be a notable event, and one worthy the patronage of our citizens. Notwithstanding that it is a public affair, the well known fact that the grand army boys were never known to give anything but a first-class dance should keep no one away for fear the best of order will not be maintained. The boys pride themselves on their good behavior and their guests are expected to include only those similarly inclined. Tickets are being sold rapidly and a good attendance is already assured. The dance will take place at the Bower City Rifles' armory, and the banquet at the Post headquarters. One dollar pays the bill and the proceeds go to swell the relief fund of both organizations.

## THE WATER WORKS.

## The Question of a Complete System of Water-Works.

To be discussed at the Business Men's Association this evening.

The question of a water supply for the city of Janesville will be discussed at the meeting of the Business Men's association this evening. This is a question which deeply interests every tax payer in the city, and one which should be carefully considered. The question of what kind of works we are to have—reservoir, direct pressure, or a combination of the stand pipe and direct pressure—ought not to divide the sentiment of the people at this time. Some are using these differences of opinion to concentrate an opposition to the movement in favor of water works. These questions as well as the source of water supply, should be deferred until it is decided to construct the works. The main question to be settled now—shall we have water-works? Shall they be owned by the city, or by a private corporation? We understand that the committee on public improvements of the Business Men's Association will be prepared this evening to present facts and figures to the meeting throwing sufficient light on this question that the people may easily decide it for themselves.

Janesville, by the recent state census, is given the tenth place among the cities of the state. The nine larger cities, and many smaller, now have water works in operation, and with one exception are experiencing regular "booms" in the way of business and a healthy increase of population. The question for us to decide at this time is not merely the building of water works, but whether we shall stand still and allow other localities to reap the harvest at our expense. The Gazette has frequently remarked that we cannot afford to remain inactive while the communities around us are ever on the alert to draw to them new business enterprises. We cannot increase our business and our population without a corresponding outlay of capital. The credit of Janesville is second to no city in the United States, and there is no valid reason why we should remain in the old-time ruts, contenting ourselves with what the morrow may chance to bring forth. Some say that we cannot afford the luxury of water-works, either to own them ourselves or to hire from a private corporation. This, we think, a great mistake. We will look at it on the ground of fire protection, and see. The expenses of our present fire department, including the purchase of hose, new apparatus, etc., will now average \$7,000 per year; the chances are that these figures will be increased rather than decreased. With this outlay of money, our property-owners—the tax payers—receive no reduction in insurance rates, but pay annually between forty and fifty thousand dollars as premiums on insurance. It does not necessarily follow that the building of water-works will reduce the rate of insurance any more than the purchase of additional fire engines, but with a complete system of water-works in our city—with a fire hydrant on alternate corners of our streets with a capacity equal to both our steam fire engines, our property owners would feel themselves safe in carrying less insurance, and at least one-half the sum named would be saved—a sum sufficient to pay the expenses of the fire department, the water rent for hydrants, or the interest on the money borrowed to build the works, with a good balance left. This may not be money saved to the city, but it is money saved to the tax payers, and can be verified in any city where water works are in operation. The money thus saved to the tax payers would in a very few years amount to a sum larger than the cost of the proposed works.

The proposition of Messrs. Goodhue & Birney, of Springfield, Mass., published in the Gazette last week, to furnish the city a water supply, will come before the business men's meeting this evening for discussion. The building of water works need not necessarily follow; the business men's association will simply make an effort to present to the common council some definite plan for their consideration. The only real division of sentiment between those favoring water works is whether the city shall build and own them, or a private company build and own them. This question while important, should not interfere with the more important question as to whether we will or will not have the proposed works. Inasmuch as the proposition of Messrs. Goodhue & Birney contemplates the city eventually owning the plant, and inasmuch as the city would build the same by contract if constructing her own works, it is reasonable to assume that a contract from some private company will finally figure in the enterprise. The reputation of the Springfield firm, whose proposition will be considered this evening, bears a thorough investigation, and entitles them to careful consideration. Let us keep in mind the important fact that water works will add to our material growth and prosperity, and any practical measure looking to this end as a final result should command our thoughtful attention.

A Captain's Fortunate Discovery.

Capt. Coleman, sobr. Weymouth, playing between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected, and a single dose had the same happy effect. Dr. King's New Discovery is a standard remedy in the Coleman household and on board the schooner. Free Trial Bottles of this Standard Remedy at F. Sherer & Co's Drug Store.

## CHURCH NOTES.

## ALL SOULS CHURCH.

Yesterday morning Rev. Joseph Waite, the new pastor of this society preached an interesting sermon on the subject of "Religious scores from the camp of Physical science." He spoke of how the various discoveries made by scientists had affected the Christian religion and he pointed out passages to show that the Bible was not an inspired writing! He thought that the time of obedience to all the laws laid down by the Scriptures and the various creeds was at an end and the era of intelligent thinking had arrived. Dryden, the English poet after naming an animal resembling each one of the churches ended by comparing the Catholic church to a white hind. The speaker thought that the hind should be used as a symbol of all the Christian churches at the present time. They are all very timid and fly when there are no pursuers, thus patterning after the conduct of that timid beast. The sermon showed much originality of thought and much depth of treatment. The Rev. Waite is an eloquent speaker and an earnest worker. He has succeeded in drawing many people to the house of God, and his sermon yesterday was well worthy of mention. The audience which was a very fair one was much interested by the points which their pastor brought out.

## BAPTIST CHURCH.

Yesterday morning, afternoon and evening, Rev. Harold P. Sayles preached to large audiences. He has met with great success and though at first intending to close his Janesville labors last week has decided to stay one more week.

The text for his morning sermon yesterday was from Proverbs, "He that covereth his sins shall not prosper." The subject of hypocrisy was handled earnestly and without gloves. In the evening a crowded church greeted him and taking for a text Ezekiel, 23: 13: "Turn ye, turn ye, for why will ye die?" He spoke eloquently on turning to God.

This week the services will be the same as heretofore; every evening except Saturday, and every afternoon except Monday.
